

# CRA Council Remuneration Adjustment

Town of Amherst

January 21, 2019

# BACKGROUND

- Compensation for elected officials is not considered salary
- Traditionally a portion of the compensation has been exempt from income taxes (one third currently)
- Some rationale provided for the tax-free exemption was to recognize elected officials were contributing to their communities, attending events at their costs, travelling within their communities without reimbursement
- The increase in taxation means increased revenue for the province and federal which is being paid for by the municipality

## DISCUSSION/DISCLAIMER

- The Federal Government announced in their budget the exemption would be removed effective for the 2019 tax year – January 1, 2019
- The next few slides are for demonstration purposes only
- Council should inquire about the actual impacts of the change in taxation based on their own personal situation
- The tax amounts are based on 2017 tax rates (this is the only on-line calculator available)
- This analysis shows the increase in compensation required for Council to take home the same pay as they received prior to the tax change

- The NSFM is recommending that pre-tax compensation for elected officials be adjusted to allow them to maintain the same levels of post-tax compensation after the 2019 laws are enacted.
- A scan of the other jurisdictions shows that most fall into one of these three options:
  - 1) Defer the increase until 2019/2020 budget discussions
  - 2) Implement an increase effective Jan 1, 2019
  - 3) No increase at all
- Of the municipalities that responded to the request for information, there are four that have not yet made a decision.
