

SYNOPSIS

PROCEEDINGS OF COUNCIL POLICY AMENDMENTS

The Proceedings of Council Policy sets out the requirements for the conduct of meetings, as well as how requests to present to Council are approved.

Staff often receive requests to present to Council from individuals and organizations. Sections 78 and 79 of the policy currently states that such requests go to Committee of the Whole for Council to decide if they would like to hear the presentation, then the presentation is scheduled for a future Committee of the Whole meeting. A change to this process is being recommended so that requests to present can be approved by the Mayor, and when and if required be forwarded to Committee of the Whole for them to decide if they would like to hear the presentation.

MOTION:

That Council approve the amendments to the Proceedings of Council Policy #10350-24.
