RE: **Integrated Youth Services Update**

In July 2023 the IWK made a call out for interested community-based organizations and municipalities to register for an information session and workshop to learn about Integrated Youth Services and how to apply to be a future location of such a site.

In September 2023, lead organization YMCA of Cumberland and 7 other partner organizations, including the Town of Amherst, sent in an application for consideration.

On April 10th, 2024 it was announced that Amherst, Nova Scotia was one of 7 locations who were approved to receive an Integrated Youth Services site.

More information to follow.
